# change to personal identification number (pin)

Qudos Bank permits Members to change their PINS. It is important that Members help the Bank to reduce fraud and unauthorised transactions by taking care when selecting a PIN. Members should not select a PIN that is obvious such as a date of birth, postcode, or consecutive numbers.

**WARNING:** Members must not select a numeric PIN that represents the Member's birth date, or an alphabetical PIN that is a recognisable part of the Members name ("a Prohibited PIN"). If a Member selects a Prohibited PIN it may increase the risk of unauthorised transactions, for example a card may be lost or stolen with a driver's licence that shows the Members date of birth. A Member will be liable for any unauthorised transactions made using a Prohibited PIN.

## » Declaration

I have used the PIN change terminal offered by Qudos Bank (the Bank), to select a new PIN of my own choice for my Bank Cuecard/Visacard.

I have read and understood the notice above, including the warning NOT to choose a Prohibited PIN.
